

Career Ready through Meldrum Academy

Aspire, Accelerate, Achieve more in your S5/6

Want to find out more about this fantastic business and personal development opportunity for pupils committed to staying on for S5 and S6.

What do you need?

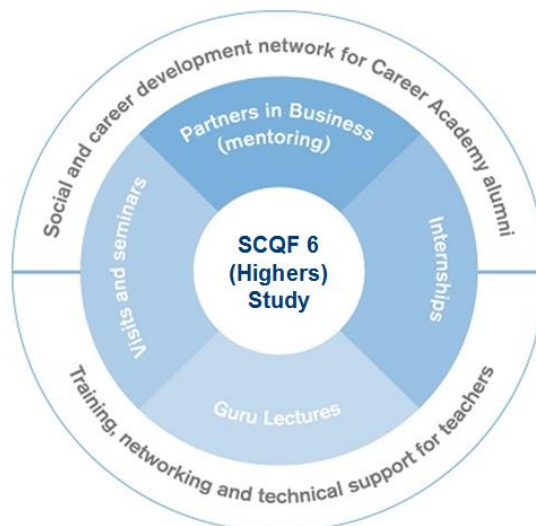

- Stamina, drive and determination to do more than just study subjects in class
- You are expected to be studying 1 to 3 subjects at Higher in S5 and similar in S6 with at least one as a STEM subject.
- Commit to a two year programme

What will the successful participants get?

- A personal business mentor to support you with your school studies and the programme
- A paid four week internship at a company based in North-East Scotland
- A series of masterclasses from business people based in North East Scotland
- Visits & seminars at businesses in North-East Scotland

There are five or six places available to students from Meldrum Academy and you must be willing to commit to staying on through both S5 and S6. You must also be willing to commit the last week of summer term and the first three weeks of summer holiday between S5 & S6 in order to complete the four week internship (which must be continuous and during those weeks)

This is not an option instead of a subject choice. It's an additional enrichment option. Applications, interviews and selection will take place in June 2017.
